PROFESSIONAL PROFILE

Computer Programmer graduate from Lambton College with a strong foundation in IT support, computer systems, hardware and software troubleshooting, networking fundamentals, and Microsoft 365. Hands-on experience assisting users with technical issues, configuring computer equipment, and delivering excellent customer service in fast-paced environments. Knowledge of Windows environments, HTML, CSS, JavaScript, Git, Firebase, and SQL. Strong problem-solving, communication, and teamwork skills, with a passion for providing reliable technical support and building a career in IT Support and Help Desk.

PROJECTS

INTERACTIVE RESTAURANT FLOOR MANAGEMENT SYSTEM

Technologies: HTML, CSS, JavaScript, Firebase

- Developed an interactive restaurant table management system with real-time synchronization between devices.
- Implemented admin editing mode with authentication controls.
- Built responsive tablet-friendly interface for restaurant operations.
- Used Firebase Realtime Database for live updates and data persistence.

MADURITO'S HOUSE RESTAURANT WEBSITE

Technologies: HTML5, CSS, JavaScript

- Developed interactive front-end components using JavaScript and responsive web design principles.
- Implemented multilingual support (English/Spanish).
- Built dynamic shopping cart functionality with WhatsApp integration.
- Designed responsive user interfaces optimized for desktop and mobile devices.
