PROFESSIONAL PROFILE

Computer Programmer graduate from Lambton College with a strong foundation in computer systems, troubleshooting, networking fundamentals, and software applications. Experienced in providing exceptional customer service in fast-paced environments while efficiently resolving issues and supporting end users. Skilled in Windows environments, Microsoft Office, HTML, CSS, JavaScript, Firebase, Git, and responsive web technologies. Passionate about delivering technical support, learning new technologies, and building a career in IT Support and Help Desk.

PROJECTS

INTERACTIVE RESTAURANT FLOOR MANAGEMENT SYSTEM

Technologies: HTML, CSS, JavaScript, Firebase

- Developed an interactive restaurant table management system with real-time synchronization between devices.
- Implemented admin editing mode with authentication controls.
- Built responsive tablet-friendly interface for restaurant operations.
- Used Firebase Realtime Database for live updates and data persistence.

MADURITO'S HOUSE RESTAURANT WEBSITE

Technologies: HTML5, CSS, JavaScript

- Developed interactive front-end components using JavaScript and responsive web design principles.
- Implemented multilingual support (English/Spanish).
- Built dynamic shopping cart functionality with WhatsApp integration.
- Designed responsive user interfaces optimized for desktop and mobile devices.
